Re: Sheri Andrunyk, Founder, Partner Publisher, Speaker, Consultant, Author
IC Publishing and Women for Women Canada

As Executive Director of Hospice Georgina, it is my pleasure to write this testimonial for Sheri Andrunyk, outlining some of her contributions to our agency. Hospice Georgina provides non-medical support for palliative people, their caregivers and families, and the bereaved. As a small non-profit agency, we rely heavily on support for the community to be able to provide our services for free. Over the past few years, Sheri has been one of our ardent supporters.

In 2013, Hospice Georgina undertook a project entitled *Connecting in a Caring Community via Photovoice*, an outreach to isolated seniors. Sheri Andrunyk created the journal component for Hospice Georgina's Photo Voice project, and facilitated the associated workshops.

Every year, Sheri's *Women for Women* event, held at Briar's Resort, raises the community's awareness of Hospice Georgina and results in financial contributions to help maintain existing programs and create new ones.

As a writer and publisher, Sheri has encouraged volunteers and staff to share their journey, to increase the Hospice profile. She has gifted our library with her first book, "Hearts Linked by Courage" in the hope that the stories contained therein will serve to give others confidence and persuade them to contribute their vital stories for the future benefit of Hospice.

Sheri is always eager to provide ongoing support of Hospice events, by donating to our annual Hike for Hospice, sponsoring participants, and attending other fundraising functions as well. In conclusion, Sheri is a model supporter of Hospice Georgina and we would be unable to function without individuals like her.

Sincerely,

Marie Morton
Executive Director
